

*Are you looking for new markets
for your products?*

***EUROLEK LTD invites you to Ukrainian
pharmaceutical market***

Population of Ukraine 42 522 767

EUROLEK Ltd. carries out registration, distribution and promotion of European medicinal products, medical devices and dietary supplements in Ukraine

EUROLEK Ltd. is a full service company licensed to import and wholesale pharmaceutical products

We offer:

- market analysis and product portfolio construction
- registration and certification of products in Ukraine
- logistics
- warehousing
- distribution
- promotion
- pharmacovigilance

Products represented by our company are unique offers on the pharmaceutical market for various diseases treatment in the field of gynecology, urology, gastroenterology, therapy, pediatrics, dermatology, surgery, proctology and otolaryngology.

This allows Eurolek LTD. to offer Ukrainian consumers high-quality and highly efficient products that have already proved themselves in Europe.

The in-house service of medical representatives who work in all regions of Ukraine is always timely and quickly provides information that helps to increase the awareness of doctors, pharmacy workers in the company's products.

Eurolek Ltd. does not offer unbundled services.

What we offer is partnership where you are a manufacturer and we act as an exclusive distributor.

We are open to new business contacts and partnership proposals.

We are interested in innovative products and products with outstanding features which would distinguish them from most of the similar products.

Advantages of partnership with EUROLEK

1. Minimization of risks for the manufacturer when entering new markets, since the main costs for registration, logistics and distribution are covered by Eurolek Ltd.

You do not need to open your own representative office to start working in a new market.

2. Eurolek Ltd guarantees fulfillment of the contractual procurement plans.

3. Deliveries on terms of advance payment.

4. We undertake full range of a product merchandising services.

We are particularly interested in (but not limited to):

Gynecology:

- Non-hormonal drugs for hypermenoria (menorrhagia) treatment;
- oral preparation of the protein complex of iron, for treatment of iron deficiency anemia;
- suppositories of papaverine hydrochloride, 20 mg;

Surgery and dermatology:

- a product for enzymatic cleansing of wounds from necrotic tissues (ointment, cream, gel, solution);

Pediatrics:

- Phytomenadione (vitamin K1) pediatric dosage, injectable or oral form;
- Oral rehydration product: a set of rehydration salts + zinc or a set of rehydration salts + zinc + probiotics;

Ophthalmology:

- Hydrocortisone ophthalmic ointment 0.5%, in a tube of 3 g or 5 g;
- Tetracycline eye ointment 1% in a tube of 3 g or 5 g.

We are looking forward to your business proposals
